CALIFORNIA VIEWS. The San Francisco Times of the 19th ult.

"In the coming Presidential election we must stand or fall in battling for none but great national issues, and our organization must be strictly kept to this idea. The question to be decided is whether the Secession movement has been a failure, or whether the Blood and treasure of the North have been spent in vain in putting down the Rebellion. If such a misfortune should occur as a return of the Democratic party to power in the General Government, then indeed it will have been decided that the war against traitors was all in vain, and a reaction will commence that will not only involve a repudiation of all that has been achieved, but will imperil the very existence of the Republic. The Presidential campaign of 1868 will be most exciting and important. All the smoldering elements of defeated treason will be fanned into a flame, all the prejudices of race and class will be appealed to their depths, in order that sham Democracy may triumph over truth and progress. Unnon men, therefore, must awake to a realization of the situation, and make carnest preparation for the great contest that is before them."

GEN MEADE QUESTIONED The Gettysburg (Pa.) Star says that previous to the late election in Pennsylvania, a Democratic Committee of that State approached Gen. Meads to obtain his views on the Presidency, and plausibly to urge his consent to become their candidate. The General said there were three difficulties in the way: 1st. He preferred his present position; 2d. He had no taste for the duties of the Presidency; 3d, He intended voting the Republican ticket.

the Presidency; 3d. He intended voting the Republican ticket.

GRANT AND IMPARTIAL SUFFRAGE.

The Philadelphia Morning Post says: "The Republican party is pledged to Impartial Suffrage, to the absolute destruction of all tests of color or race in the laws of the United States. That pledge will be kept by the majority of the party; letter and spirit it will be kept. We will not break it for Grant; we will not break it to obtain success; we will accept defeat before we will consent to give up one jot of principle in our platform, or to wink at the slightest infidenty in our candidate.

"This, therefore, we would say to all Republicans,—stop before, it is too late to stop. Refuse to indorse Grant till Grant has indorsed Radicalism. Meet his silence with silence more profound. Do fot let America see the shameful spectacle of the Republican party moving in crouching procession to offer, to beg, to bribe any man to become its lender and its candidate. Let us go our way, shift if Gen. Grant believes as we believe let him come to us."

THE FIRST ASSEMBLY DISTRICT OF ORANGE.

It is said that Major W. C. H. Sherman, the Democratic eanddate for Assembly in the 1st District, has declared his intention to contest the seat of W. K. Smith, the Republican candidate, who is declared elected by a majority of 93 By what is now supposed to have been a mistake in the figuring in the Fourth Ward of Newburgh, Major Sherman was at first declared elected. Newburgh, Major Sherman was at first declared elected.

THE UNION_REPUBLICAN GENERAL COMMITTEE.
The Union Republican General Committee beld a special meeting on Saturday evening at head-quarters, Broadway and Twenty-second-st. Mr. Charles S. Spencer was Chairman, and Messrs. Chas. S. Strong and Wm. Drummond were Secretaries. The Executive Committee reported a call for nominating Conventions to be held as follows: City and County on Wednesday, Altermanic on Thursday, School and Ward on Friday, and Councilmanic on Saturday, of this week. Mr. Charles C. Pinckiney moved an amendment to the call as follows:

Bessloed, That the General Committee being the call satisfact representative of the sextiment of the Econ Republicans of the City of New York, it is expected and required of such monimating Convention to place before the people for their support at the ensuing election such nominees only as are of undoubted integrity and as are magnatical exporters of the platform adopted by the late Union Republican State Convention at Straeme.

Todge White, worker against the resolution. The con-

painform adapted by the late Union Republican State Convention at Syracuse.

Judge White spoke against the resolution. The conventions should not be restricted in their action by the mandate of the General Committee, especially in the momination of school officers. If the Republicans could knock down one Democrat with another Democrat, they should be at liberty to do it. Mr. Thomson was not in favor of running after the Democrata. A gentleman officer an amendment to the amendment, that if Democrats were supported by the Republicans, the latter should ascertain whether the former could read or write. A member said that in the lower part of the city no Republican could be elected, and therefore the nominations should be left entirely to the judgment of the conventions. Mr. Spencer vacated the chair, and earnestly and, at times, cloquently spoke in favor of the amendment offered by Col. Phekacy. He was sake and tired of hearing the nomination of Democrats urged upon the Republicans. Increasing the number of factions of the Democratic party only increased the total Democratic majorities in State and Presidential elections. The Republicans must stand by their principles. They were now supposed to be withstanding the shock of a great defeat. But the Republicans can be shock of a great defeat. But the Republicans and had pierced darker clouds than those which now lower. The final victory shall be ours, but, in any event, rather dismiss success than principle. Genthe Republican sub had pierced darker clouds than those which now lower. The final victory shall be ours, but, in any event, rather dismiss success than principle. Gendlemen had said that the conventions would be right in disobeying the proposed special instructions by the General Committee. Any conventions adopting such a course would be speedily reconstructed. The General Committee had unquestioned authority to issue these instructions. A member, in opposing the amendment, said there were interests above those of party. Such were the interests of the schools. He should strenuously advocate the election of the best men for School Trustees. Mr. Alexander McLeod opposed the amendment, and cited cases where prominent Republicans had urged a policy similar to that now advanced by the opponents of the amendment. After speeches by Messrs. Nathan C. Kingsley, John O. Miller, James L. Hastie, Isaac Dayton, and others, the amendment as adopted by 63 Yeas to 19 Nays. The call, as amended, was then unanimously adopted. Mr. Isaac Dayton moved that the call be reconsidered. He thought the time for definite action had not come. Many of the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of this city were utterly wearled with the Democrats of their party, and would unite with Republicans in the election of good men to office should the nominations be made as not distinctly Republican. The Republicans, therefore, would act wisely in not hastening the aminations.

Mayor Plagg of Troy, appears to be the first man in the field on the Democratic side for Speaker of the New Assembly. New York or Kings, however, will doubtless claim the prize, since between them they send up nearly thirty members, all true-blue Democrats.

MAJOR WALLER—Dear Sir; Permit me through the columns of your paper to thank my friends for their generous and cordial support at the recent election; and especially let not the friends of the Midland Railroad be discouraged at the result—which has been brought about by causes ever which they could have no control, and for which they are not accountable. Let us push forward the work with all possible vigor and dispatch. Our political opponents are piedged to cooperate with us, and must now assume their share of the labor and responsibility. It is no less necessary to labor now than before election, and we shall at least have the satisfaction of not being accused of selfish or political motives faction of not being accused of selfish or political motives H. REPUBLICAN MAJORITY OF 5,000. ROOMS OF REPUBLICAN STATE CENTRAL COMMITTEE, ST. PAUL, Minn., Nov. 8 .- Sufficient returns lave been received to warrant the announcement of the reve been received to warrant the announcement of the reflection of Wm. R. Marshall, the Republican candidate for Governor, by at least 5,000 majority, against 3,400 two years ago, and more glorious than any former achievement of the Republican party. The amendment striking out the word "white" from our Constitution has been probably adopted. Manhood suffrage was voted for by hearly nine-tenths of the Republicans of the State.

WISCONSIN.

Returns and estimates from 31 counties and parts of counties, embracing nearly nine-tenths of the population of the State, place Fairchild's majority at 3,555, among the remaining counties and parts of counties is the Democratic stronghold of Washington County, in which the Democrats claim 2,600 majority. The remaining counties, with moderate estimates, figure the total majority for Fairchild in the State at 5,634.

ceived from different portions of the State are sufficient to indicate with certainty the election of the whole Republican State ticket, and a good strong working majority in both houses of the Legislature. The extraordinary efforts of the opposition, united with the apathy of the Republicans, have caused a reduction in our majority, but this does not indicate any change in the political sentiment of the State. By working up, with great vigor, a purely imaginary and folse issue concerning the temperance and Sunday laws, the opposition have succeeded in getting the votes of a few German Republicans, and, what was more to the purpose, by inducing a scare among the Democratic Germans, the brewers and retailers of beer, have excited an interest that railied their voters to a main in the districts settled by Germans. A strong railroad interest has also worked for the Democratic State ticket in some quarters. On the other hand, in many Republican strongholds a feeling of security, productive of apathy, prevailed. By the concurrence of these influences there is a diminution of the Republican majority in the State. Judging from a comparison of the returns received with the vote at the last State election, when our majority was 9,000, we judge there will be a failing off in the Republican majority in the State from 2,000 to 4,000. This will leave a majority sufficient for all practical purposes." to indicate with certainty the election of the whole Re-

CALIFORNIA.

ANALYSIS OF THE SEPTEMBER VOTE. The Alta California says: We have received The Alta California says: We have received from the office of the Secretary of State the official returns of the late election from every county in the State but one, Santa Barbara. From these figures we find that the total vote of the State was 22,776, that being combined on the vote for State Treasurer, the other candidates receiving less than that cast for the two candidates for that office. Gorham's total vote is 40,000; Haight's, 40,604; Fay's, 2,988. For Ideutenant-Governor — Jones, 44,274; Holden, 47,000; Secretary of State — Parks, 41,230; Nichols, 48,272; Nickerson, 2,019. State Controller—Howell, 41,575; Watt, 48,540; Jones, 2,001. Treasurer—Pacheco, 44,909; Coronel, 47,897. Attorney General—McCullough, 44,501; Hamilton, 47,908. Surveyor-General—Reed, 44,723; Bost, 47,742. State Printer-McCarthy, 33,765; Gelwicks, 48,989; Jefferis, 4,452. Clerk of the Supreme Court—Waite, 44,579; Seckell, 47,941. The total vote for Congressmen in the State was 92,66. In the 1st District, inching only one county to make it complete, Phelps had 13,678, and Axiell had 18,438 votes—making Axtell's majority 4,810. In the Hd District, where our only Union Congressman was elected, Higby had 16,603, and Coffroth had 14,780 votes—Higby's majority being 1,257. In the Hdd District Hartson had 14,594, and Johnson had 14,767 votes, and a majority of 373.

Beside the votes for Governor noted above, one vote was cast for Bidwell and one for Pixley, making a total vote for Governor of 91,744, and Haight's majority is 7,464. Without giving any other majorities now, it may be said that the highest vote on any ticket was that cast for Haight; the lowest vote on any ticket was that of William Jones, the "Republican" candidate for Controller, who had 2,001 votes. The lowest vote on the Democratic ticket was that of Best, Surveyor-General; and the lowest on the Union ticket was that of McCarthy, candidate for State Printer, who had 6,144 votes less than Pacheco, candidate for State Traesurer, who had the largest vote cast for any candidate from the office of the Secretary of State the official re-

NEW DOMINICAN CHURCH-ADDRESS BY ARCHI BISHOP M'CLOSKY.

Long before 3 o'clock yesterday afternoon an immense concourse of people, numbering perhaps 25,000, had assembled at the intersection of Lexington-ave, and Sixty-sixth-st., to witness the ceremenies pertaining to the laying of the corner-stone of a new Dominican Church, Probably 4,000 men, women, and children occupied the bottom of the great excavation dug for the foundations of the new church. This space was one sheet of mud and water; yet old and young of both sexes, who occupied it, held it, with all discomforts of drizzle overhead and mire under foot, until the venerable Archbishop had pronounced the benedletion. At 3 o'clock a procession of priests, headed by Father Starr, the Vicar-General, filed out of the Mission Church adjoining the lot on which the new structure is to be erected, and, with Archbishop McGloskey bringing up the rear, moved to a raised platform at the east end of the excavation. Here a short service was performed, and the cierzy then surrounded the corner-stone, the Archbishop in the center. The ceremony of laying the stone was conducted by the Archbishop after the time-honored form of the Catholic Church. The Archbishop was then escorted to the grand platform, from which he spoke to his people. Father Wilson, Superior of the Dominican Brotherhood of New-York, a round, jolly, old father—one of the kind of which we read in Scott's "Monastery" and his "Abbot"—rattled off a few humorous remarks, in which he impressed upon the minds of his hearers the importance of coming forward with their contributions, brought in several hundred dollars in a very few minutes. The Dominicans in the United States are included in the Province of St. Joseph. The headquarters of the Order are at St. Rose, near Springfield, Kentucky, where the Province of St. Joseph. THE GREEK CHURCH.

At the Broadway Tabernacle, last evening, notwithstanding the inclement weather, a large congregation gathered to hear the Pastor, the Roy. J. P. Thompson, deliver a preinde to "The Greek Church and its Relationship to Christianity, on which subject he will preach next Sabbath evening. The Rev. gentleman commenced his discourse by a review of the three great pretensions of the Roman Church: I. Her claim of autiquity; II. Her claim of activities of the Roman Church: II. Her claim of autiquity; III. Her claim of semmenical authority. He asserted that there was no proof, Scriptural or other, that Peter ever was in Rome; but the testimony rather was, by inference at least, that he never resided in that ancient city. Up to the close of the second century there was no recognized chief or head in the Church, and this fact would dispose of Roman Apostolic succession. When Paul communicated with his Christian constituency in Rome, he wrote them in the Greek tongue, which was and still remains the language of theology, and not the Latin. The Roman Church was not the first Church, but was a departure from established religiou, and its organization has been ever racked with schisms and internal controversies. The Eastern Churches are older than the Roman hierarchy, and to the Orientalists are Christians indebted for the Sacred Scriptures and the Nicone creed. The Rev. gentleman claborated, the many Roman fallacles, and at length turned his attention to the Greek Church, which, he said, numbered from 65,000,000 to 70,000,000 souls, all of whom, excepting a few millions scattered throughout Greece and contiguous territories, were within the Russian Empire. The Greek Church differed from the Roman Church in many essentials, but in none more than this: that the former permitted the marriage of her ministers, and thus preserved the morality of the priesthood. It would be impossible for the Greek Church to malie with Iman, and presented many points o

Those who believe the prosperity of this Company would have been that it has been, without wise and provident direction, and able and careful administration, are generously mistaken.
